WATER PIPE TALK GIVEN AT KIWANIS

Club Completes Plans for District Meeting Here Oct. 14

Because of its timeliness, a talk on various kinds of pipe manufactured by the National Tube Company, a subsidiary of the U. S. Steel Corporation, by Eric Barnett, technical engineer for the company, proved interesting at the weekly Kiwanis club luncheon Friday.

Barnett was the guest of Jack Aaland, superintendent of the local plant of the Soule Steel Company, who was chairman of the day. The speaker told how pipe deteriorates from corrosion and how the various pipe companies are making every effort to control this decay. In answer to a number of questions, Barnett told what he thought would be the best kind of pipe for use by the city in the event Torrance buys its own distributing system as part of the publicly-owned water plant.

It was announced by J. W. Leech, secretary of the club, that the attendance on Friday was the best the club has recorded in recent months. Plans were perfected for the district meeting October 14 at the Women's clubhouse when the Torrance club will be host to the surrounding clubs. The semi-finals for the oratorical contest will be held at this time along with other entertainment planned by the Torrance Kiwanians.

Petty Thievery Outbreak Here

Five Minor Thefts Reported To Police in Two Days

Mrs. Silverthorne, nurse at the Columbia Steel plant, reported that her car, parked near the Mayfair apartments, was jacked up and a tire stripped off. Mrs. F. W. Crossland, of 1330 Engracia avenue, told police that someone had entered the rear house at that address and removed all the light fixtures. At the same time, Mrs. Crossland reported that Mrs. Melvina Beckwith, of 1332 Engracia avenue, lost all her ripe peaches by thieves during the night.

The Moose lodge room on Carson street was broken into some time between September 27 and October 4, according to J. Lepkin, who said that although the room was ransacked, apparently nothing was missing. Mrs. Fred C. Paisley, of 1538 Post avenue, informed police of the theft of two bottles of milk from her porch Saturday morning.

stone wishing to join may do so without a special invitation, however. Applications may be given to Mrs. S. S. Tannehill, membership chairman, on Dolores street, near Carson.

Lasco In Sharp Cut of Steamship Fares for Coast Voyage

In line with its established custom of popularizing water-horne travel along the California coast during the delightful fall months—when, perhaps, a greater proportion of calm days and smooth seas may be enjoyed than at any other season—the Los Angeles Steamship Company announces a sharp reduction in one-way and round-trip fares on the S. S. Yale and on the S. S. Harvard between Los Angeles and San Francisco and between San Diego and San Francisco. The reductions are effective October 1 and will continue in effect on through the fall and winter months.

The minimum round-trip fare at present in effect between Los Angeles and San Francisco, with a return limit of seven days, will be reduced from \$22.75 to \$18. The minimum one-way fare between the two ports will be reduced from \$11 to \$13. The fares already existing between Los Angeles and San Diego will remain unchanged, \$3 one-way and \$6 round-trip, except on Thursdays and Sundays out of San Diego when special \$4 round-trip fares are in effect for northbound sailings from San Diego at 9 a.m., arriving back in San Diego the same evening at 8 p.m.
